

投Touying

GIVE A PRESENTATION IN TYPST

Touying is a user-friendly, powerful and efficient package for creating presentation slides in Typst.

1. Install Simply

1. Just use the Web App:
<https://typst.app/>
2. Or use Typst locally:
 - Install VS Code
 - Install Tinygist

2. Split by Headings

== First Title

Text for the first slide.

First Title

Text for the first slide.

== Second Title

Text for the second slide.

Second Title

Text for the first slide.

3. Math, Layout, Programming and Animation

```
// Math
$ E = m c^2 $
```

Math

$$E = mc^2$$

```
// Layout
#slide(
  composer: (2fr,
    1fr)) [A][B]
```

Layout

A	B
---	---

```
// Programming
$ cos(0) =
  #calc.cos(0) $
```

Layout

$$\cos(0) = 1$$

```
// Animation
First #pause
Second
```

Animation

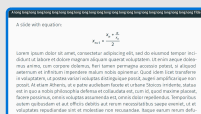

First
First Second

4. Beautiful Themes and Simple Customization

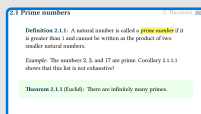

1. Aqua

2. Metropolis

3. University

4. Stargazer
